

Who We Are

About Us

The Empowerment Academy was established in 2025 to provide students from pre-kindergarten through first grade with the opportunity to enhance their literacy skills, reading abilities, and competencies. In recent years, there has been a growing need for learning programs tailored to males. The Empowerment Academy was designed for promising young gentlemen who require specialized and challenging curricula to reach unprecedented potential.

The Empowerment Academies' experienced Instructors will motivate and stimulate your young adult in a way that will give an edge academically and throughout their lives.

“The Academy Pledge”

Wherever I may be, at home, school, church, community, or play, I will shed rays of loving kindness, honesty, and thoughtfulness to everyone regardless of race, religion, creed, or color. My contributions to the future are that I will help make this a better world.

Summer Enrichment Program for Gentlemen

For Rising Pre-K, K, and 1st Grades

8 AM to 4PM
Monday - Friday

Session II: July 7-25, 2025

The Curriculum

Our goal is to strengthen academic skills through an accelerated program. Expert teachers will utilize a program for “higher-order thought” provoking questions to augment students’ skills.

Each specialized curriculum will be specially designed for the student to help build self-esteem, life-long values, and social skills throughout education and extracurricular activities.

Fieldtrips play a critical role in academic success. Students participate in experiential and exploratory field trips each quarter. These in-state trips will facilitate students’ understanding of history, culture, and industry.

Extracurricular Activities

Our goal is for the extracurricular activities to be fun and enjoyable for the scholars. The activities will build both networking and interpersonal skills that will give each student an edge to succeed for their future.

Activities

- Field Trips
- Arts & Crafts
- Outdoor games
- Advanced Academics
- Story Telling
- Etiquette

Mind, Body & Soul

Mission Statement

To develop the intellectual and moral aspect of each student so that they will make significant contributions to better our society.

Our goals to achieve this mission are the following:

- To foster the moral growth of students by ethical example and through the expectation of responsibility, integrity, and respect for the worth of each individual.
- To promote opportunities for each student to realize self-fulfillment and to understand a valid sense of worth.

Vision Statement

The Academies cultivate the wonders of learning, independence of thought, honor in action, and joy in the community. Education is integrated; thus, it does not begin or end in the classroom. We believe that “a healthy child” can learn, and education starts in the home. Therefore, we educate the whole child, and it encompasses the mind, body, heart, and soul.
